**REPORT:** The main objective of the Student Induction Programme is to help the new students adjust and feel comfortable in the new environment, inculcate in them the ethos and culture of the institution, help them to build bonds with other students and faculty members, and expose them to a sense of larger purpose and self-exploration. The Students' Induction Program also covers several different aspects, abbreviated as SAGE: Socialising, Associating, Governing, and Experiencing. The five-day induction programme successfully oriented the incoming batch of students to the institutional environment, academic expectations, extracurricular opportunities, and values of Auxilium College. It fostered a sense of belonging and motivation, creating a strong foundation for the academic journey ahead. The local area visit proved to be an informative and enriching experience. It not only broadened the students' knowledge but also instilled a sense of pride and curiosity about their local environment, aligning with the programme's goal of holistic student development.
