

## **Madame Marie Curie Endowment Lecture – 7**

**From Date** : 16.10.2024

**Organised by** : PG and Research Department of Chemistry

**Academic Year** : 2024 – 2025

### **Report:**

The PG & Research Department of Chemistry, Auxilium College (Autonomous), Vellore organized the “MADAME MARIE CURIE ENDOWMENT LECTURE -7” on 16 October 2024 on the topic “APPLICATIONS OF NOVEL HETEROCYCLES IN PHARMACOLOGY” by Dr. M. Sathiya Ph.D., SET., Guest Lecturer, Government Thirumagal Mills College, Gudiyattam (A Past Pupil of the PG & Research Department of Chemistry, Auxilium College (Autonomous)). The lecture was held in computer block seminar hall where about 150 participants attended the lecture. The programme began with a prayer song. Dr. B. Scholastica Mary Vithiya PG Head In charge and Associate professor, Department of Chemistry introduced the resource person and welcomed the gathering. Dr. J. Rosaline Ezhilarasi, Head and Associate Professor, Department of Chemistry felicitated the resource person with a shawl as a token of appreciation and gratitude. Dr. M. Sathiya introduced heterocyclic chemistry and spoke about its classification, biological occurrence and applications. It was a very informative lecture. Dr. E. Radha, Assistant Professor, Department of Chemistry proposed the vote of thanks followed by the College Anthem.
