

Cyber security club

Objectives:

- * To bridge the gap between academic learning and real-world cybers ecurity needs.
- * To spread basic cyber security awareness that every individual should possess in today's digital world.
- * To promote responsible digital behavior and data privacy as a human right.
- * To empower students and the public to protect themselves against cyber threats and to promote a safe and secure digital environment.

Moto:

"Secure Today. Safe Tomorrow."
